USDA ANNOUNCES FEDERAL FUNDING

Presidio, Texas, May 20, 2002--The City of Presidio will receive a \$250,000 grant from USDA Rural Development announced Bryan Daniel, Texas State Director. USDA Rural Development is charged with assisting rural communities by administering programs targeted to strengthening the economy and infrastructure of rural areas.

"USDA Rural Development's Community Facilities program helps rural communities keep pace with the needs of their rising populations," said Daniel. "With lower populations and tax bases than urban areas, rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

The funds will be used to help construct a 5,500 square foot fire station/emergency services facility. The community of 4,167 residents does not have a fire station. The grant was awarded through a special initiative program to develop essential community facilities in rural communities suffering from high unemployment and poverty and low median household incomes.

In Fiscal Year 2001, a total of \$6.3 million in direct and guaranteed loans were obligated. Community Facilities loan funds may be used to construct, enlarge or improve community facilities for health care, public safety, and public services. These loans and grants are made to public entities and non-profit organizations. Examples of eligible projects include rural healthcare clinics, town halls, fire trucks, county safety equipment, jaws of life, early warning systems, community centers, libraries, day care centers and schools.
